Biometric Access Control Products
Quick Reference

HandKey® II
Part Number: HK-2-F3

· Convenience of multiple credential options such as proximity, magnetic stripe, barcode, HID iCLASS® and MIFARE®
· Field installable Ethernet module
· Outdoor enclosure options that make the HandKey II an ideal solution for outdoor usage
· Field upgradable and expandable memory options from 512 to 259,072 users for scalable security that grows with your needs
· Three user-definable outputs to connect to auxiliary devices such as audible or silent alarms, door locks or lighting systems
· Ability to write the industry's most compact biometric template on a card instead of in a database results in higher security & unlimited user capacity
· Specially formulated antimicrobial coating with silver ions on the platen to inhibit the growth of bacteria, mold and mildew to mitigate hygiene concerns. The coating is safe and lasts for the life of the product
· Blue hand outline on platen facilitates easy enrollment and reduces error rates during verification

HandKey ID3D-R
Part Number: ID3D-R

· All-metal housing for increased durability and toughness
· Left handed configuration for drive-through applications and entrance gates
· Recess-mount option for reduced obstruction at high traffic areas
· Convenience of multiple credential options - magnetic stripe, bar code
· Two user definable outputs to connect to auxiliary devices such as audible or silent alarms, door locks or lighting systems

ID3D-RW

Biometric HandKey with Standard
256 User Memory, Integrated Heater + Enclosure

Ideally suited for outdoor environments, the ID3D-RW enclosure is constructed of heavy-gauge zinc-coated steel. It features a sealed keypad, low-temperature display and a heated interior. This is a fully integrated unit and comes complete with a HandKey and an internal heater.

FX Enclosure (FX-ENCL)

Biometric HandKey Enclosure

Constructed from high impact UV resistant polycarbonate material, the FX Enclosure provides a degree of protection against dusty, dirty, or rainy environments. This enclosure has been designed so that it can be added to an existing installation. When used with an integrated heater option (INT-HTR), it provides a comfortable heated platen against a cold climate.

TX Enclosure (TX-ENCL)

Biometric HandKey Enclosure

The TX Enclosure provides a higher degree of protection against dusty, dirty, or rainy environments. When used with an integrated heater option (INT-HTR), it provides a comfortable heated platen against a cold climate.
